A dictionary is the basic thing for any language class. The most important thing that a student should know is how to use it. A student needs to have at least three dictionaries available to learn English properly. The first one should be a bilingual dictionary that covers words in the native language as well as in English. The second one should be a monolingual dictionary that gives word information in English. The third one should be a native language dictionary. When teaching begins, learners will use a bilingual dictionary for simple translations. Monolingual dictionaries are also necessary pieces of language learning studies, because they provide learners with definitions, pronunciations, etc. The problem becomes hard with studies when the students do not fully understand the words **they** are translating, and they get confused. Teachers know that they should clear up the confusion quickly before they jump into to the next lesson. When the students enter a more advanced level, they must have a native language dictionary that relates to their own language. When they do not understand the meaning of a translated word in their own native language, they can use this dictionary to figure it out. **True / False** **50.** A dictionary is the basic thing for any language class. Children are taught to respect elders by their parents at very young ages. Throughout the school and university, they are reminded of them while their responsibilities develop. But still, we often forget to respect our elders. Respecting elders should come from within. Respecting elders comes under good habits and manners. Everyone welcomes well-behaved person. As we all know, history repeats itself. If we respect our elders today, we will get respect when we grow old.

There are many ways to show respect to elders. For example, they feel happy and honored when we include them in the decision making of the family. They are more experienced than us and they also have walked the same path before us. So, we should always ask for their advice.

Another way is listening to **them** and following their customs which they have lived up to. We should also **repeatedly** visit them and invite them to our house, too. We should often sit and eat with them. All this will help us to recognize and appreciate others. Always remember that people are always judged by their actions and each word or action has a reaction.
