3	متن زیر را بخوانید و به سوالات آن پاسخ دهید. It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now they have grown old. A few years hence we will also grow older. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old. Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents, as **they** are our first teachers in our life. 	Dictionaries which explain what words mean give a clear 'definition' of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning. A good dictionary lists all the meanings of words to help people find the meaning that they look for. A complete dictionary also tells you about the origin of words and the story behind them. **35.** What does the word ' dictio' mean? …….. **36.** What is the difference between technical dictionaries and biographical ones? ……. **37.** How does a dictionary explain the pronunciation of the words? …….. **38.** Dictionaries which change words into other languages always translate both ways. **a)True b) False** **35.** We may find the story behind words in some dictionaries. **a)True b)False**
