4	متن زیر را با دقت بخوانید و به سوالات آن پاسخ دهید. In many cultures around the world, elders are highly respected. They are seen as the keepers of wisdom and are asked for advice and guidance in all areas of life. In Norway, a program called "Old Friends" pairs older adults with younger people for regular social activities, such as going for walks or cooking together. The program has had significant success in reducing loneliness and social isolation among older adults. According to research, Japan has one of the longest life expectancies (the length of time that someone is likely to live) in the world, with many elders living beyond 100 years. One reason for this is the respect they receive from younger generations. Respecting elders not only benefits the elderly but also has a positive impact on younger generations. By learning from elders, younger people gain valuable knowledge and insights that	14
