We have to take care of parents because they have done it for us so earlier.<br>d. All parents care for their children as all children once cared for them. | 1 |
| **12** | **PASSAGE 1:**<br>A collocation is two or more words combined together. These combinations sound natural to native speakers, but students of English have to learn them with exercise because they are often difficult to guess. The unnatural combinations are wrong for native speakers of English. As an example, the adjective "fast" collocates with "cars" but not with "look." Learning collocations is the most important part of learning the vocabulary of a language. Some collocations seem fixed or very strong. In "take a photo," no word other than "take" collocates with the photo to give the same meaning. The other example is "make an effort" and not "do an effort." Some collocations are more open, because several words may go together to give a similar meaning, for example, "keep to or stick to the rules." Sometimes, a pair of words may not be wrong, and people will understand it, but it may not be the natural collocation. If someone says I did a few mistakes, a fluent speaker of English may understand, but it would probably say, "I made a few mistakes."<br>❖ **True / False**<br>**43- A word that is often used naturally is called collocation.** **a) True** **b) False**<br>**44- In learning the words of a language, learning collocation is important.** **a) True** **b) False** | 2 |

a. I did a few mistakes b. I did an effort

c. fast cars d. fast look

❖ **Answer the following questions.**

**47- Why are some collocations called more open?**

**48- What is a collocation?**

**13** **PASSAGE 2** 2

When reading, you may find some words that are in capital letters, and seem to be different from other words in the text. Sometimes, these words sound difficult to pronounce. Abbreviations and acronyms are two examples of such words. They are short forms of words and phrases. An abbreviation is a shortened form of a word used in place of the full word. (e.g., Adj for Adjective). An acronym is a word formed from the first letters of each of the words in a phrase or a name (e.g., IRIB for Islamic Republic of Iran Broadcasting). They help to make writing easier to read and understand. They also help us to write within a specific word limit, and avoid repeating the same words over and over. Sometimes, authors create new acronyms when **they** invent a new technique and want to make it sound cool. This helps people remember the technique more easily.

However, we should use these short forms carefully. Using too much of them can make the text harder to read, especially for people who do not know what they mean. It can confuse readers and make them lose their interest. To avoid wasting time reading through pages to find the definition of an unfamiliar word, we should use such forms sparingly and only when they're really necessary.

❖ **True / False**

**49- Abbreviations and acronyms are formed in different ways.** A) True b) False

**50- Using acronyms makes a text easy for both writers and readers.** A) True b) False

❖ **Choose the best answer.**

**51- The underlined word** "They" **in the first paragraph refers to ----------.**

a. readers b. acronyms c. authors d. words

**52- According to the above explanation, which one is** false**?**

a. PC (Personal Compute) b. AD (Anno Domini)

c. BC (Before Christ) d. AD (Adverb)

❖ **Answer the following questions.**

**53- How are abbreviations and acronyms similar to each other?**

**54- Why do authors use acronyms when creating a new technique?**
