T:

متن زیر را بخوانید و به سوالات زیر پاسخ دهید. (3)

Rest and relaxation are just as important to our body as exercise and healthy eating. If you don't get enough of them, you can make yourself ill. When you dream, your brain is preparing itself for the next day's thinking. You need at least eight hours sleep a night. If you stay out late, try to go to bed early the next night. Because your body needs a period of rest to repair itself. During sleep body cells try to grow and repair themselves. If you have troubles getting to sleep, try reading a book or take some exercises and avoid tea, coffee, or food before bedtime. A hot, milky drink may help you relax.

1. What happens when you dream?
2. What can we do to sleep better?

TRUE or FALSE

3. To be healthy, you just need physical exercise and good food T ☐ F ☐
4. While sleeping, the human body has no activities. T ☐ F ☐

Good luck
