Thus we need to care for them because <u>they</u> deserve to be cared for. Respect and care for elders start with our parents as they are our first teachers in our life. No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them. So it is our duty to help them when they need us because they are not young enough to handle things on their own like before. 53- Who loves us unconditionally? …… 54- What does "they" in line 2 refer to? …… Fill in the blanks using words from the passage. S	متن زیر را با دقت بخوانید و به سوالات زیر پاسخ دهید. The country of Australia has a vast area of land called "the outback", where few people live. If you live in the outback, chances are you're far from any town. And that means you're a long way from a school. So what do you do if you can't go to school? Well, school comes to you. Over 100 kids in the outback attend ASSOA-Alice Springs School of the Air. ASSOA students are connected by the Internet. Some lessons happen in real time. When students log in, their teacher appears on their computer screens. She can talk to students, show an art project, or explain a science experiment. She can't see the students, but she can hear them. Students communicate with their teacher and with each other over the internet, using their computers. But because students are in a "virtual" classroom and not at a physical school, they must still have a home tutor. The tutor can be a parent or a hired teacher. All tutors are trained to help students understand and complete their work. ASSOA tries to create a school community. Every two weeks, students attend a virtual school assembly. Three times a year, all students travel to the town of Alice Springs. For an entire week, they leave the virtual classroom and enter a real one. 61- School kids in the outback attend physical schools every day.
