M	متن زیر را بخوانید و با توجه به مفهوم،به سوالات جواب دهید: Note-taking is a necessary part of the language learning. It helps students learn, keep, and remember information. Taking notes make them think differently about the subject; it requires the learners to look at things differently. It also helps them pay attention during the class because they are actively listening and experiencing in the classroom. Not only do the students meet their needs by taking good notes in English classes, but everyone should find note-taking as the best way to work with written and spoken texts. Taking notes let learners check interesting points from what they are researching, reading or listening to. Writing some parts in their own words, also called note-making, makes everything clear for the note takers when looking back at the text. It is a much better learning technique than just depending on your own memory. Remember that word-for-word note-taking can hurt systematic thinking as it takes away the time of explaining ideas through examples and pictures by just writing down facts without context. It is why Isaac Newton said that he did great things just because he was sitting in the great men's classes and taking notes. 40) Note-taking makes learners different in thinking. a) True b) False 41) You should write in your own words when taking notes. a) True b) False 42) Which of the following is NOT true about note-taking? a) It helps learners check interesting points b) It is used for written and spoken texts c) It helps learners pay attention during class d) It depends on your memory 43) According to the passage, word-for-word note-taking can hurt systematic thinking because -----. a) it explains ideas through pictures b) it takes away the time of people c) it is writing down facts without context d) it depends on active listening 44) Why did Isaac Newton do great things? 45) Why does note-taking help students pay attention during the class?	4

When you come across an unfamiliar word, that word may stop your understanding of the passage. Your eyes pause too long on the word as you try to get its meaning. You go back and read the word again, try to get its meaning from the context. As a result, you read much more slowly than you should, and you find that the difficult word is a wall to your comprehension. Suppose that you know many words and you are skilled in finding the meanings of new words. Your eyes move quickly and you read rapidly. You comprehend what you are reading. If you have a good vocabulary, you are more interested in reading. 46. What may happen when you come across an unfamiliar word? 47. How does having a good vocabulary influence your reading habit? 48.
