4	متن زیر را بخوانید و به سوالات هر قسمت پاسخ دهید. Respect is a way of acting well or thinking highly about something or someone. You respect those who are important to you. You show your respect by being polite and kind. When you are impolite or act badly toward people, they may feel sad or angry. But whom should you respect the most? You must care for those who always care for you. You know that your parents care for you for every little thing. You must love them, respect them, and care for them. Besides bringing you into the world, your parents spend their time, energy, and strength to make sure that you have what you need or want. Telling them that you thank them reflects the level of your respect for them. The easiest way to show your love and respect is to tell them that you appreciate who they are and what they do. You can also do something small but meaningful, for example, wash the dishes, clean the kitchen after dinner or clean the rooms. Your parents will pay attention to and appreciate your acts of kindness. You may also tell your mom how well she cooks, or tell your dad how great he is at his job. For most of parents, any of these small things can be a sign of respect. **True / False** 26**.** We respect those who are important to us for some reasons. a) True b) False 27**.** If you are impolite or act badly toward people, they feel important. a) True b) False **Choose the best answer.** 28**.** We show our…….by being polite to those we care for. a) need b) strength c) happiness d) respect 29**.** Telling your parents that you thank them ……. the level of your respect for them. a) reflects b) invents c) imagines d) shouts **Answer the questions.** 30**.** What is the easiest way to show your love and respect to your parents? ……. 31**.** Can doing good small things show your respect to your parents? (Give an example) …….	**10**
4	متن زیر را بخوانید و به سوالات هر قسمت پاسخ دهید. A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word ‘dictionary’ comes from the Latin ‘dictio’ (‘saying’). There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words. Dictionaries which explain what words mean give a clear ‘definition’ of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning. **True or False** 32**.** You can find words easily because dictionaries put them in alphabetical order. **True** **False**	**11**
