It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow older. If today we respect them, our present and future generations will **carry** those values and will learn to respect us as well when we grow old.

Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents as **they** are our first teachers in our life.

No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them. So, it is our duty to help them when they need us because they are not young enough to handle things on their own like before.

51. Our elders deserve to be respected and cared for. **True ☐ False ☐**

52. Elders do not have much to share with the younger generation. **True ☐ False ☐**

53. Which of the following is a synonym for the word **'carry'** in the first paragraph?

a) forgive b) keep c) break d) grow

54. What does the pronoun '**they**' in the second paragraph refer to?

a) respect and care b) elders c) parents d) teachers

55. According to the text, when do our parents feel honored?

There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words.

Dictionaries which explain what words mean give a clear 'definition' of **them**. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also bilingual dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English.

A complete dictionary also tells you about the origin of words and the story behind them. For example, the words like 'pajamas', 'bazaar' and 'paradise' entered English from Persian.

56. Dictionaries of biography tell us about famous people. **True ☐ False ☐**

57. Some dictionaries do not give users the meaning of words. **True ☐ False ☐**

58. The words 'bazaar' and 'pajamas' are originally English. **True ☐ False ☐**

59. What does the pronoun '**them**' in the second paragraph refer to?

a) definitions b) dictionaries c) information d) words

60. What is a bilingual dictionary? ……
