Passage 1

2	Another important thing is our heritage and culture. We have much to learn from our parents regarding our heritage, to be proud of our past. This heritage and history brings a sense of belonging. Most importantly, it brings us a sense of identity of our past and the responsibility to protect it for our future generations. What I can add at the end is the role of our parents' morals, values, and principles in our lives. Our elders have either learned, created or have been brought up with a set of morals, values and principles in their lives. Our elders want the best for us and they are willing to tell us what set of rules and guidelines have made them successful, and hopefully, peaceful. 45. Our heritage and culture are important and can be learned from our parents. (True / False) 46. Heritage and history do not provide a sense of belonging. (True / False) 47. We are responsible to protect ..... for our future generations. 48. How can we be proud of our past?	O

Passage 2

3	A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio' ('saying'). There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words. Dictionaries which explain what words mean give a clear 'definition' of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning. A word like 'right' has several meanings in English, for example, 'correct' and 'the opposite of left'. A word like 'present' may be used as an adjective, meaning 'not absent', as a noun, meaning 'gift' or as a verb, meaning 'give'. Words with different meanings exist in other languages, too. A good dictionary lists all the meanings of words to help people find the meaning that they look for. A complete dictionary also tells you about the origin of words and the story behind them. For example, the words like 'pajamas', 'bazaar' and 'paradise' entered English from Persian. 49. Which of the following types of dictionaries translates words from one language to another? a) Dictionaries of biography b) Technical dictionaries c) Bilingual dictionaries d) Dictionaries that explain word usage 50. A dictionary usually arranges words in ..... order. 51. The International Phonetic Alphabet (IPA) is often used in dictionaries to show ..... 52. Dictionaries of ..... tell about famous people. 53. What is the origin of the word 'dictionary'? ..... 54. Give an example of a word that has entered English from Persian:	P

Passage 3

In our daily lives, showing appreciation is important. It can make people feel valued and happy. For instance, when your friend helps you with homework, saying "Thank you" can show your gratitude.

Sometimes, small actions like a smile or a kind word can make a big difference. People feel good when they know their efforts are noticed. For example, if someone opens the door for you, saying "Thanks, I appreciate it" can brighten their day.

Different cultures have different ways of showing appreciation. In some places, words are enough, while in others, a small gift might be more common. Understanding these differences can help us express gratitude better.

Remember, appreciation is not just about big things; it's the small acts that count too. So next time someone does something nice for you, don't forget to say "Thank you."
