Example sentences are not just helpful. they are actually more important than definitions. While a definition tells you the meaning of a word and (sometimes) gives you some grammatical information. example sentences have at least two advantages: 1. They let you check if you have understood the definition correctly. The meaning of a word can become much clearer if you read a few sentences with the word. 2. They show you how to use a word in sentences. Many words "go with " certain grammar structures (for example the, word "important " is often used in the phrase "It is important to…") or words (for example the word "weather " goes with forecast and not "prediction "). Example sentences present this information in a clear way. You can easily copy them to make your own natural sentences. 31. Example sentences help you learn more. TRUE ☐ FALSE ☐ 32.
