Throughout school and university, they are reminded of them while their personalities develop. But still, we often forget to respect our elders. Respecting elders should come from within. Respecting comes under good habits and manners. Everyone welcomes a well-behaved person. As we all know, history repeats itself. If we respect our elders today, we will get respect when we grow old. There are many ways to show respect to elders. For example, they feel happy and honored when we include them in the decision-making of the family. They are more experienced than us and they also have walked the same path before us. So, we should always ask for their advice. Another way is listening to **them** and following their customs which they have lived up to. We should also **repeatedly** visit them and invite them to our house, too. We should often sit and eat with them. All this will help us to recognize and appreciate elders. Always remember that people are always judged by their actions and each word or action has a reaction. So, if you want to succeed and be happy in life, start respecting elders by being polite. Finally, I would like to say that our elders are really worthy and we should respect them. **I. Choose the best answer.** **37. The word "repeatedly" in the second line of paragraph 3 means …….. .** a) many ways b) many times c) many customs d) many actions **38.
