A dictionary is a book which explains about the words. It comes from the Latin 'dictio' means saying.There are several types of dictionaries such as learner's dictionaries, picture dictionaries and technical dictionaries.It is really easy to find the words because the dictionary lists the words according to the alphabetical order. A good dictionary also explains how the words are pronounced. When using a dictionary, one has to be careful to choose the right meaning because some words have more then one meaning. A complete dictionary tells about the origins of the words,too.

1.There is inly one type of dictionary. True False

2.It is difficult to find the words in a dictionary. True False
