Hafez is known to be as one of the most famous Persian poets of all time. He was born sometime between the years 1310 and 1337 A.D1. in Shiraz. In his childhood, he received religious education. He is called Hafez because he learned the Holy Quran by heart. Hafez is mostly remembered for a special type of poetry that is called Ghazal. Emotions and ethics are used in Ghazals a lot. The collection of his poems is called Divan. It has been translated into countless languages including German, English and French. Hafez is known to be the inspiration for many poets and authors around the world.

Questions:

32. Divan -e- Hafez has been translated into countless languages. This means that it has been translated into ……..

a. only a few languages b. countable languages

c. uncountable languages d. too many languages

33. The above paragraph tells us that .....

a. He is called Hafez because he received religious education.

b. Hafez can be regarded as a person whose ideas and style in poetry have been followed by many people.

c. Many poets and authors around the world are known to be the inspiration for Hafez.

d. Translation of Divan into foreign languages was done by countless poets.

Chess is called the game of kings. It has been around for a long time. People have been playing it for over 500 years. Chess is based on an even older game from India. The chess we play today is from Europe.

Chess is a two-player game. One player uses the white pieces. The other uses the black pieces. Each piece moves in a special way. One piece is called the king. Each player has one. The players take turns moving their pieces. If a player lands on a piece, he or she takes it. The game ends when a player loses his or her king. There are a few more rules, but those are the basics.

Some people think that chess is more than a game. They think that it makes the mind stronger. Good chess players use their brains. They take their time. They think about what will happen next. These skills are useful in life and in chess. Chess is a kind of work out for the mind.

You don't always have lots of time to think when playing chess. There is a type of chess with short time limits. It's called blitz chess. In blitz chess, each player gets ten minutes to use for the whole game. Your clock runs during your turn. You hit the time clock after your move. This stops your clock. It also starts the other player's clock. If you run out of time, you lose. Games of blitz chess are fast-paced.

Chess is not just for people. Computers have been playing chess since the 1970s. At first they did not play well. They made mistakes. As time went on they grew stronger. In 1997, a computer beat the best player in the world for the first time. It was a computer called Deep Blue. Deep Blue was big. It took up a whole room. By 2006 a cell phone could beat the best players in the world. Chess sure has come a long way. Don't you think so?

Questions

38. What is the author's purpose in writing the second paragraph?
 a. To explain the rules of chess b. To compare different types of games
 c. To talk about game pieces d. To persuade people to play chess
39. How long have people been playing chess?
