4.5	متن زیر را بخوانید و به سوالات به‌شکل خواسته‌شده پاسخ دهید. Maryam Mirzakhani, only woman to win Field Medal Born in Tehran. Maryam Mirzakhani achieved the gold medal level in the International Mathematic Olympiad in 1994. As a child, she loved to become a writer; but she eventually discovered a passion for mathematics. After graduating from Sharif University of Technology, she went to the U.S to get a Ph.D. at Harvard University and later became a professor at Stanford university. She won the Field Medal award, the highest mathematical award, in 2014 for her accomplishments in her work on Riemann surface, a complex mathematical subject. She was the first woman to win such an award. Mirzakhani was diagnosed with breast cancer in 2013. In 2016, the cancer spread to her bones and liver, and she died in 2017 at the age of 40 in California. Sharif University renamed its faculty of mathematics to "Mirzakhani". **True / False** 60. Maryam Mirzakhani was the first female to win the fields Medal. (0.5 P) a. True b. False 61. From childhood Maryam Mirzakhani loved to study math. (0.5 P) a. True b. False **Answer the following questions.** 62. Which university did Mirzakhani choose for studying Ph.D.? (1 P)	T

	…… 63. How did Mirzakhani die? (1.5 P) ……	
4	**مکالمهٔ زیر ر ا بخوانید و به سوالات پاسخ دهید.** Note-taking is a necessary part of the language learning. It helps students learn, keep, and remember information. Taking notes make them think differently about the subject; it requires the learners to look at things differently. It also helps them pay attention during the class because they are actively listening and experiencing in the classroom. Not only do the students meet their needs by taking good notes in English classes, but everyone should find note-taking as the best way to work with written and spoken texts. Taking notes let learners check interesting points from what they are researching, reading or listening to. Writing some parts in their own words, also called note-making, makes everything clear for the note takers when looking back at the text. It is a much better learning technique than just depending on your own memory. Remember that word-for-word note-taking can hurt systematic thinking as it takes away the time of explaining ideas through examples and pictures by just writing down facts without context. It is why Isaac Newton said that he did great things just because he was sitting in the great men's classes and taking notes. **True / False** 64. Note-taking makes learners different in thinking. a. True b. False 65. You should write in your own words when taking notes. a. True b. False **Choose the best answer.** 66. Which of the following is NOT true about note-taking? a. It helps learners check interesting points b. It is used for written and spoken texts c. It helps learners pay attention during class d. It depends on your memory 67. According to the passage, word-for-word note-taking can hurt systematic thinking because ……. a. it explains ideas through pictures b. it takes away the time of people c. it is writing down facts without context d. it depends on active listening **Answer the following questions.** 68. Why did Isaac Newton do great things? …… 69. Why does note-taking help students pay attention during the class? ……	U
