Traveling is one of the best things that you can do for your health. It helps your physical and mental health, and many travelers say that it's also excellent for the emotions. Everyone may have many stressful moments in his life, but when you get out on the road and visit new places in your country you help yourself to forget many bad events that you have seen with your eyes. We know that there are many ways for traveling. We can go by train, car, or even by bicycle and each of them will all help us in ways that we have never imagined.

The most important part of traveling is movement and you know how useful movement is, right? You know that this is the best way to improve your health. Not only it will help you lose weight, but also you will have a healthier heart and healthier lungs. As a result your whole body and also your blood pressure will thank you! So, it is time to save your money and plan your next vacation and start enjoying your life like many other travelers!

1. According to the text, many travelers think that trip
