4.5	**متن های زیر را بادقت بخوانید و به سوالات خواسته شده پاسخ دهید.** **Passage 1** Motherly love by its very nature is unconditional. Mother loves the newborn infant because it is her child, not because the child has fulfilled any specific condition, or **<u>meets</u>** any specific expectations. Unconditional love corresponds to one of the deepest desires, not only of the child, but also of every human being. On the other hand, to be loved because of being worthy or because one deserves it, always leaves doubt and there is always a fear that love could disappear. Furthermore, deserved love	14

www.kanoon.ir

	easily leaves a bad feeling that one is not just loved for himself. No wonder that we stick to the true desire of motherly love, as children and also as adults. **62. One can conclude from the reading that in order for a mother to love her child, ……. .** 1) the child is expected to do what is required from him 2) they have to share many memories 3) there are certain specific conditions they both have to follow 4) the child doesn't need to do anything  **63. The word 'meets' in the second line is closest in meaning to ……. .** 1) touches 2) joins 3) faces 4) provides **64. As it is pointed out in the passage, motherly love ----.** 1) is the only love a baby can get 2) is what we need even if we are grown-up 3) is not related to unconditional love 4) is the kind of love that we lose when we grow up **65. Generate two questions from the passage with the following question starters.** a. What …… ? b. Who …….. ? **66. Attack this word, "Unconditional". Try to write down two words related to it.** a. ……... b. ……...	
2.5	**Passage 2** There is a famous expression in English: "Stop the world, I want to get off!" This expression refers to a feeling of panic, or stress, that makes a person want to stop whatever they are doing, try to relax, and become calm again. 'Stress means pressure or tension. It is one of the most common causes of health problems in modern life. Too much stress results in physical, emotional, and mental health problems. There are numerous physical effects of stress. Stress can affect the heart. It can increase the pulse rate, make the heart miss beats, and can cause high blood pressure. Stress can cause a person to breathe too fast, resulting in a loss of important carbon dioxide. Stress can affect the stomach and cause stomach aches. These are only a few examples of the wide range of illnesses and symptoms resulting from stress. Emotions are also easily affected by stress. People suffering from stress often feel anxious. They may have panic attacks. They may feel tired all the time. When people are under stress, they often overreact to little problems. For example, a normally gentle parent under a lot of stress at work may shout at a child for dropping a glass of juice. Stress can make people angry, moody, or nervous. Long-term stress can lead to a variety of serious mental illnesses. Depression, an extreme feeling of sadness and **hopelessness**, can be the result of continued and increasing stress. Eating disorders, such as anorexia, are sometimes caused by stress and are often made worse by stress. If stress is allowed to continue, then one's mental health is put at risk. It is obvious that stress is a serious problem. It attacks the body. It affects the emotions. Untreated, it may eventually result in mental illness. Stress has a great influence on the health and well-being of our bodies, our feelings, and our minds. So, reduce stress: stop the world and rest for a while. **True or False** 67.Continued and increasing stress results in tension. ------ 68.The author mentioned just a few examples of the wide range of illnesses resulting from stress. ---- 69.What is the most common causes of health problems in modern life? …….. **70. Attack this word, *"Hopelessness". Try to write down two words related to it.*** ……. a. ……. b. ……... ***Wish U Luck!*** 	15
