Elders have a lot to share with us: their life, their failures, their successes, and many more. Thus we need to care for them because they <u>deserve</u> to be cared for. Online dictionaries

The internet has changed the way we learn foreign languages. Online dictionaries are a great resource for anyone who wants to learn a new language. They are one of the most useful tools you can use to expand your vocabulary and knowledge of a foreign language. Some features are only available in online dictionaries.

1. A search box : You can search for words by typing or clicking on them in this box
2. An example bank : Since there is much more space in online dictionaries, you will find many more example sentences than in paper dictionaries. This will help you understand how words are used in context.
3. An audio function : Many online dictionaries have an audio function that lets you hear how a word is pronounced.
4. A history button : With this button, you can go back to the previous searches and see which words you have looked up recently.
5. A word of the Day : You can usually subscribe to an email that will send you a new word every day.
6. A quiz function : Some online dictionaries have a quiz function that allows you to test your knowledge of a word.
7. A translate function : Some online dictionaries are a translation function that allows you to translate words into other languages. This is slightly more advanced feature, but very useful if you want to hear the word in another language.

But despite all these features, paper dictionaries still have their place. For some people, they are easier to use, especially for those who do not have a computer or smart phone. Therefore you might want to have both type of dictionaries at home.You can use a paper dictionary if you do not have access to the internet and you can use an online dictionary if you do.
