12	**READING COMPREHENSION:** **Passage one:** For many people, their teenage years – from 13 to 19 – are sometimes the best or worst years of their lives. Sometimes some teenagers feel that there are any differences between them and their parents. Teenagers often want to show that what they do is correct. They want to wear different clothes to show that they are free. In some countries, they can drive when they are only 16. Many young people work at part – time jobs after school and on weekends, so they can buy their own cars. After finishing high school, some of them live in their own apartments. Still teenagers must know that their parents have a lot to share with them: their life experiences, their failures, their successes. They should respect and care for their parents as parents are the best support in their lives. **Answer these questions using your own words.** **31. According to the passage, teenagers are between thirteen and nineteen years old.** a) True❑ b) False❑ **32. Teenagers at the age 16 can drive in all countries.** a) True❑ b) False❑ **33. Passage Two:

3

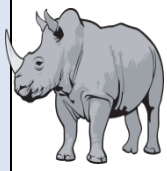

Read the following passage and answer the questions.

LET S SAVE THE WILD ANIMALS OF OUR WORLD !!

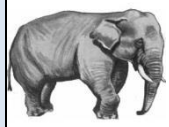

Hello to you all! My name is Laura Ashley. I am a zoologist and I work to preserve and save endangered species_ the animals which are disappearing from our planet because of the changes in climate, hunting or poaching, and the destruction of their habitat. Do you know that one of the last male white rhino has just died? Here are some estimates for some very emblematic animals. There are only about 700 gorillas of Kivu highlands left, 1600 giant pandas, between 2000 and 3000 Bengal tigers, between 7000 and 10000 cheetahs, about 130 condors, less than 50 Amur leopards, between 4000 and 6600 snow leopards, about 7000 orangutans, 80% of the population of the white shark has disappeared in less than 15 years, 80% of the population of the Irrawaddy dolphin has disappeared in the last 50 years. The Chinese dolphin disappeared in 2006, the giant Pinta tortoise in 2012, 50% of the Asian elephants were exterminated in one century. Many species no longer exist in the wild and can only be seen in zoos! With the ice disappearing at the poles, polar bears are threatened. Elephants are killed for the ivory of their tusks, rhinos are killed just for their tusks as well, which are reduced to powder and supposed to have medical power. Big cats are killed for their fur, or hunted in safaris for fun! The destruction of big forests leads to the death of many species of animals and plants. Even the bees are dying massively and don't forget that if they do disappear, men will follow soon after. So it is our responsibility and yours as well, you young generations to do your best to preserve the biodiversity of our planet!
