3	**Read the text carefully , then answer the questions *completely* .** Recent research has shown that the use of social media can be harmful to mental health. Spending too much time on sites or some apps like Facebook and Instagram can make you feel more anxious and depressed. That's because social media often only shows what its users want to see. For example, if you like to go on vacation, you'll see a lot of posts from your friends who have recently traveled. This can make you feel that other people are having more fun than you. One study has found that people who use social media for long periods of time every day are usually more depressed and lonelier. Other studies have also found that people who spend a lot of time on social media often do not get enough sleep because they stay up late. Lack of sleep can cause mental problems such as depression and anxiety. Although social media can be a fun way to connect with friends and family, it can also be a source of stress. If you feel anxious or depressed after spending some time on social media, take a break from your accounts. Try spending more time offline with people you care about. 59- Why can spending too much on social media make us feel more anxious and depressed ? 60-Are there any ways to prevent depression caused by social media ? 61- Scan the text and find names of two apps on sites . 62-Which one is the best topic for this text? a) The fun of using social media b) Lack of sleep can cause anxiety. c) The bad effects of social media d) Going on vacation can be fun to everyone.	**15**
4	**Read the text and answer the questions .** متن را به دقت بخوانید وپاسخ صحیح دهید. An endangered language is a language that has very few speakers. Nowadays, many languages are losing their native speakers. When a language dies, the knowledge and culture disappear with it. A lot of endangered languages are in Australia and South Americas. Some of them are in Asia and Africa. The number of live languages of the world is around 7000, and many of them may not exist in the future. Many researchers are now trying to protect endangered languages. This can save lots of information and cultural values of people all around the world. 63. The endangered languages are losing their native speakers. True☐ False☐ 64. The number of live languages of the world is around seven hundred . True☐ False☐ 65. Researchers want to help endangered languages. True☐ False☐ 66. By protecting languages …… A. the knowledge and culture disappear with it. 67. An endangered language ……. B. is just in Australia and Americas. 68. When a language dies …… C. has very few speakers. D. we can save cultural values of people all around the world. 69- Which one is a good topic for the text . a) The Live Languages b) The Languages of Australia and South America c) The Endangered Languages d) Saving Cultures	**16**
