4	متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. There are several types of dictionaries. Dictionaries which explain words and how **<u>they</u>** are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words. Dictionaries which explain what words mean give a clear 'definition' of them. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. There are also dictionaries which translate words into other languages. Very often one volume translates both ways; for example, half of the book is from English to Persian and the other half from Persian to English. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning. A word like 'right' has several meanings in English, for example, 'correct' and 'the opposite of left'. A word like 'present' may be used as an adjective, meaning 'not absent', as a noun, meaning 'gift' or as a verb, meaning 'give'. Words with different meanings exist in other languages, too. A good dictionary lists all the meanings of words to help people find the meaning that they look for. ❖ **True / False** **54)** Dictionaries of biography translate words from one language to another. **a)** True **b)** False **55)** The word 'present' has several meanings. **a)** True **b)** False ❖ **Choose the best answer.** **56)** What does **"they"** in the third line refer to? **a)** dictionaries **b)** words **c)** meanings **d)** languages **57)** Dictionaries that explain the meanings of technical words are called …… . **a)** picture dictionaries **b)** general dictionaries **c)** learner's dictionaries **d)** technical dictionaries ❖ **Answer the following questions.** **58)** Why can you find words in a dictionary easily? **59)** Write the meanings of the word 'right' in English?	15
4	متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old. Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respecting and caring for elders start with our parents as **<u>they</u>** are our first teachers in our life. No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them. So, it is our **<u>duty</u>** to help them when they need us because they are not young enough to handle things on their own like before. ❖ **True / False** **60)** We must love our parents conditionally. **a)** True **b)** False **61)** Our elders can handle things on their own like before. **a)** True **b)** False ❖ **Choose the best answer.** **62)** The word **'duty'** in the nineth line means …… . **a)** responsibility **b)** heritage **c)** value **d)** principle	16
