A dictionary is a book which explains the meanings of words and expressions. It is a collection of words ranging from letters A-Z. There are many different types of dictionaries such as learner's dictionaries, general dictionaries, picture dictionaries, etc. The best way to learn how to use your dictionary effectively is to read the introduction. **This** section explains issues like how entries are arranged, what abbreviations and pronunciation symbols are used throughout the entries. Different types of abbreviations are often used in the definitions for a word. There are two words at the top of each page that show the first and last entries on the page. These words as "guide words" will help you find the word you are looking for in the right letter section. Once you can find an entry, you can find the exact meaning of the word, its pronunciation, synonyms, and its origin. There are another advantages of using a dictionary, as a result, a dictionary is a great help for everyone, especially students who are learning a language and who are interested in language learning.
