| **10** | **J ) 1- Reading comprehension**<br>For many years people have been trying to create a simple universal language that would serve all over the world as a common means of communication. In the last three hundred years, more than seven hundred such languages have been suggested. The most successful and the most popular of **these** is a language called Esperanto. It was invented by Ludwig Zamenhof, who lived in Poland. When he was growing up, he saw that people from different backgrounds who lived in Poland had lots of difficulties communicating with each other. This often led to disagreements. Ludwig felt that a common language would help them understand each other better and agree with each other. So he began working on a common international language. He started his work while he was still at school! In 1887, he published some information about his new language. He did not use his real name. He used the name Dr. Esperanto (which means "one who hopes"). Soon people from all over the world became interested in his language, called Esperanto. Today, Esperanto is spoken by about eight million people throughout the world. Many governments and international organizations recognize it in many ways. Esperanto is often used on radio broadcasts from official government stations.<br><br>38. Who invented Esperanto?<br>39. How many people speak Esperanto nowadays?<br><br>40. The underlined word “these” in the 4th line refers to -----.<br><br>41. Esperanto is only spoken in Poland. ( True / False )<br>42. Esperanto means one who hopes. ( True / False ) | **4** |

| **11** | **2- Reading comprehension**<br>Dr Asadi is answering this important question: "why is it important to care for our elders?" I think first of all, we need to remember that they are our mothers and fathers, and our first teachers. They teach us how to love, how to care, how to forgive, and how to accept. Second, elders have more knowledge and wisdom than any one of us. They've come so far and they've learned so much, we have a responsibility to learn from that wisdom. But the most important thing is their experience. We may or may not know of all the ups and downs they've faced in life but they've definitely gained experience that is worth respecting and learning from. Our elders may hide much pain from us because they don't want us to feel the pain. The least we can do is appreciate <u>them</u> for all they've gone through and learn from their insight into situations.<br>Yet another important thing is our heritage and culture. We have much to learn from our parents regarding our heritage, to be proud of our past. This heritage and history brings a sense of belonging. Most importantly, it brings us a sense of identity of our past and the responsibility to protect it for our future generations. What I can add at the end is the role of our parents' morals, values, and principles in our lives. Our elders have either learned, created or have been brought up with a set of morals, values and principles in their lives. Our elders want the best for us and they are willing to tell us what set of rules and guidelines have made them successful, and hopefully, peaceful.<br><br>43. Our elders are our first teachers because we learn the essential principles of life from them. a. True b. false<br><br>44. The most important point that heritage brings us is a sense of belonging. a. True b. false<br><br>45. What does "them" in the eighth line of paragraph 1 refer to? | **4** |
