When reading or writing a story, an essay , a paragraph or even a sentence , using a dictionary is a great help. There are many advantages of using a dictionary. So, using a dictionary is important for students. The first advantage of using a dictionary is pronunciation. We can also listen to the pronunciation of the words if we use an audio dictionary. The second advantage of using a dictionary is checking out a word's right spelling. The third advantage of using it is learning a word's part of speech. **It** is one of the types into which words are divided in grammar according to their use, such as noun , verb , or adjective. Lastly, example sentences are mostly **available**. Seeing specific words used in a sentence can provide more context and help you better understand proper usage. How ever, searching words by using a dictionary takes a lot of time. By using a talking dictionary , we are able to look the words up in a few minutes. As a result, a dictionary is a great help for everyone , especially students who are learning a language and who are interested in learning a language. **48. The most common type of clean energy is the solar power. Solar energy is produced by the radiation that reaches the Earth. People have used the sun as a heat source for thousands of years. Iranians, for instance, use special designs and arrangements of windows and yards to get the most sunshine. Different types of materials might also be used in building the houses. This keeps people warm during cold seasons and cool during hot days of the year.

Nowadays, solar energy can be converted into other forms of energy, such as heat and electricity. Solar energy might be used for heating water and air in homes, buildings, or swimming pools. Maybe you've seen buildings or houses with big shiny panels on the roof. These are solar collectors that collect heat by absorbing sunlight and producing solar power. Also, solar energy can be used in generating electricity to provide power for watches, highway signs, houses and even space stations.

Clean energy resources are widely used in many countries to keep cities and villages clean. As a result, fewer fossil fuels are consumed each year and they are saved for the future generations.

54. How is solar energy produced?

55.What is the usage of big shiny panels on the roof of houses or buildings?

56. Clean energy resources are widely used in many countries to keep cities and villages clean because they don't pollute the Earth. **a. True** **b. False**

There are many words in English language. It's impossible to count the number of words in a language. Have you ever thought about where English words are from?

Many basic English words come from Old English, such as, England, house, woman, man, child, bird, water and etc. Other English words come from Latin, like, family, number, school, educate. Some English words come from French. For example, hotel and menu are two French words.

Today English is an international language. Thousands of English words come from other languages. Every year hundreds of words come into English from new technology, e.g., internet, text message, e-mail, etc. English speakers have "stolen" words from other languages and added **them** to English. Those are known as "loanwords" or "borrowings," which are derived from other languages. The next time you hear one; tell your friends where the word originally came from!

57. How do words come into English language every year?

58. Which words are called loanwords?

59. According to the passage which sentence is true?

a. Loanwords are derived from other languages.

b. new technology brings some Latin words into English

c. English speakers added the stolen words to other languages.

d. As thousands of English words come from other languages it`s an international language.

60. The underlined them in the last paragraphs refers to: .....

a. languages **b. speakers** **c. words** **d. messages**
