۳.۵	**Reading** متن زیر را بخوانید و به سؤالات به صورت خواسته شده پاسخ دهید. Parents are the first source of inspiration for children. Every word, every movement and action of a parent **counts**. No other person or outside force has a greater influence on a child than a parent. Parents are actually the first teachers in children's life. Little, but important, things such as riding a bike or eating with a spoon and fork are up to the parents to teach. They are also responsible for much bigger lessons like the difference between "right" and "wrong", especially how to make the world a better place and how to be a useful member of society. It's the parent's job to teach morals to children. Some may say that children learn not just from their parents but from other environments as well, such as school and social media. Therefore, what they do and how they behave are not directly related to their parents. However, it is a parental duty to control the amount of unhealthy social media and inappropriate internet access that are available for children. Although social networking environments can negatively affect children, parents should support their children by teaching them right values. Different research suggests that parents' support may be the single most important factor in how children succeed in life. **I. Is it true or false?** ۳۵. Social media play a role in educating children about the moral principles. TRUE FLASE ۳٦. The network environment is more important than parents' support. TRUE FLASE **II. Choose the best choice.** **۳۷. The underlined word "counts" in the second line can be replaced by "..... " .** a) is important b) is forgiven c) succeeds d) generates **III. Answer the questions.** ۳۸. How can parents help reduce the negative effects of social media on their children? ..... . ۳۹. What are the moral lessons that parents should teach their children?	۱۰

A dictionary is a collection of words ranging from letters A-Z. When reading or writing a story, an essay, a paragraph or even a sentence, using a dictionary is a great help.

There are many advantages of using a dictionary. So, using a dictionary is important for students. The first advantage of using a dictionary is pronunciation. We can also listen to the pronunciation of the words if we use an audio dictionary. The second advantage of using a dictionary is checking out the word's right spelling. The third advantage of using it is learning a word's part of speech. **It** is one of the types into which words are divided in grammar according to their use, such as noun, verb, or adjective.

Lastly, example sentences are mostly **available**. Seeing specific words used in a sentence can provide more context and help you better understand proper usage. However, searching words by using a dictionary takes a lot of time. By using a talking dictionary, we are able to look the words up in a few minutes.

As a result, a dictionary is a great help for everyone, especially students who are learning a language and who are interested in language learning.
