It is winter in Iran, and many people get colds and the flu during this time. The weather is cold, and sometimes it rains or snows. Kids play outside, but sometimes they have a cold.
When you feel sick, it is very important to take care of yourself. Here is some advice from a doctor: If you have a sore throat, a cough, or if you sneeze a lot, you have a cold or the flu. First, you should tell your parent. They can help you feel better and take good care of you.
If you feel very tired or have a high temperature, it is a good idea to call the doctor. The doctor can give you helpful advice. He tells you to take some medicine and rest.
When you are sick, try to rest as much as you can. Stay in bed and drink warm drinks like water or tea with honey. Eating soup can also help you feel better. Make sure to keep away from school or friends until you feel okay again.
Do not worry! Being sick is part of life, and you will feel better soon. Remember to take your medicine and try to stay in a good mood. You can relax by watching cartoons or reading books.
If you follow advice, you will be ok!
