10	**Read the following text about village life.** ***Village Life*** Life in a village can be quite different from living in a big city. One good thing about villages is that they are often very quiet and peaceful. You can hear birds singing and see many trees and flowers. The air is usually cleaner too, which is good for your health. Also, people in villages often know their neighbors very well and help each other. This can make people feel safe and supported, like a big family. It's often cheaper to live in a village because houses are not as expensive as in cities, and you might even grow some of your own food in a garden. However, living in a village also has some challenges. Sometimes, there are not many shops or big supermarkets, so you might have to travel to buy things you need. It can also be difficult to find a job in a village because there are fewer companies or offices. For young people, there might not be many fun things to do, like cinemas or big parks, and fewer chances to learn new things or go to university. Public transport like buses can be rare, so it's often important to have a car to move around easily. This means that while village life is calm, it can also be a bit boring or make it harder to get certain things. **a) Now, mark True or False** 1. Life in the village is exiting. a) True ☐ b) False ☐ 2. There isn't much public transportation in villages. a) True ☐ b) False ☐ **b. Answer the following questions.(full answer)** 3. Why do people in villages feel safe and supported? ……..…… 4. Is it easy to find a job in village? Why? ……..……	.5 2

Good Luck
