Throughout school and university, they are reminded of them while their personalities develop. But still, we often forget to respect our elders. Respecting elders should come from within. Respecting elders come under good habits and manners. Everyone welcomes a well-behaved person. As we all know, history repeats itself. If we will respect our elders today, we will get respect when we grow old. There are many ways to show respect to elders. For example, they feel happy and honored when we include them in the decision making of the family. They are more experienced than us and they also have walked the same path before us. So, we should always ask for their advice. Another way is listening to **them** and following their customs, which they have lived up to. We should also **repeatedly** visit them and invite them to our house, too. We should often sit and eat with them. All this will help us to recognize and appreciate our elders. Always remember that people are always judged by their actions and each word or action has a reaction. So, if you want to succeed and be happy in life, start respecting elders by being polite. Finally, I would like to say, our elders are really worthy and we should respect them. ❖ **Choose the best answer** **41)** The word "**repeatedly**" in the second line of paragraph 3 means ----------. **a)** many ways **b)** many times **c)** many customs **d)** many actions **42)** What does "**them**" in the first line of paragraph 3 refer to? **a)** manners **b)** habits **c)** elders **d)** families ❖ **Answer the following questions.** **43)** When do elders feel honored? **44)** Why should we ask elders for their advice? **45)** According to the passage, what does the term "**history repeats itself**" mean?	۴

Writing, or orthography, is often seen as the last language learning skill in learning English as a foreign language. The spelling of the words can be very different from their pronunciations. The English alphabet may be completely different from the Persian language alphabet, which makes the learners learn a new learning task called alphabet learning.

It can be helpful to write by using the English language whenever you can and get writing practice. For example, you could write lists of things you need to do or buy. By doing **this**, you will find new words, and by writing these things down, you will learn new spellings. Write e-mails and notes in English whenever you can. Another way to use your writing skills is to write in a diary or journal in English. You can make notes on your day, including what you did, where you went, what you enjoyed or learned, how you felt, and who and why you talked to someone. By writing about your day in a journal, you will practice the past tense in English and develop your writing skills.

۳

❖ **True/False**

46) The spellings and pronunciations of all words are the same. **a)** True **b)** False

47) Writing about your day in a journal improves your writing skills. **a)** True **b)** False

❖ **Choose the best answer**.

48) By writing practice, you can improve your ----------.

a) listening **b)** reading **c)** speaking **d)** spelling

49) What does "**this**" in the second line of paragraph **2** refer to----------.

a) finding new words **b)** writing lists of things you need to do or buy

c) learning new spellings **d)** learning English alphabet

❖ **Answer the question.**

50) How can you improve your writing skills and practice the past tense?

Although you might not like ants when they get in your food or get into your home, ants are interesting tiny insects and do help the environment. They are advanced social insects, because they live in highly organized large colonies where each group has complicated important relationships with many others. The queen ant has wings and its primary function is to lay eggs. The other female ants are called workers. They build the anthill, find food and even act as soldiers. The soldier ants protect the queen, defend the colony and attack enemy colonies in search of food.

Ants don't have ears. Ants hear by feeling vibrations in the ground through their feet. They can carry things 20 times heavier than their own body weight. The muscle arrangement in an ant gives it great strength allowing it to carry heavy things toward the entry point of the anthill. Their colonies can contain millions of ants. When a queen ant dies, the entire colony usually dies within a few months. Although many people may suppose that ants aren't dangerous, scientists have compiled a list of them which can hurt. For instance, there is a kind of ant in Australia that has a bite and can kill a person.
