Many countries now think that cars that burn fossil fuels should be replaced by electric cars. Electric
the engine, so they don't pollute the air. They
use electricity stored on the car in batteries.
Sometimes, 12 or 24 batteries, or more, are needed to power the car. Just like a remotecontrolled ca
electric motor that turns the wheels and a battery to
run the motor.
Electricity, the same energy that lights your lamps and runs your TV, is stored in batteries on an ele
like the batteries you find in flashlights
or in regular gasoline cars.
To get the battery ready to roll, you have to charge it. This process isn't much different from the wa
devices you carry around every day: your cell phone, MP3 player, or digital camera. The difference
bigger
gadget that carries you around instead.
The electric car is usually plugged in at night. The car can be plugged into a special charging unit ev
cars can be plugged right into a regular electrical wall outlet. Others need a larger outlet, like the kin
cleaner plugs into.
The engineers are trying to make better batteries that hold more energy and last longer. To overcom
electric cars, hybrid cars are also available. Hybrid cars combine the benefits of gasoline engines an
designed
to meet different goals, such as better fuel economy or more power. True / False

True or False

40. Electric cars use both fossil fuel and electricity. True False

41. All electric cars have batteries. True False

4/5 42. People can charge electric cars at home. True False

43. What is an electric car?

44. Why do people use hybrid cars?

45. Have you ever seen an electric car?

3/5	The best way to learn how to use your particular dictionary effectively is to read its introductory section where you'll find out how the entries are arranged. The introductory section of your dictionary will explain important information such as the abbreviations and pronunciation symbols used throughout the entries. Introductions to dictionaries explain things like how entries are arranged (they typically give the word, and the variations of the word; what part of speech the word is; pronunciation of the word; definition, etc.) Reading the introduction will give you a handle on how to find words and how to use information that you do find. There may also be information on the pronunciation of words with different spellings; this can be helpful if you have only heard a word and you're not sure of its spelling. For example, if you hear "not", it might also be 'knot" but the "k" is silent, and this list can help you with suggestions. 46.The introductory of a dictionary explains all of the followings except: a. abbreviations b. pronunciation symbols c. combinations d. entries arrangement 47. Reading the introduction will give you a handle on how to find words with similar spelling. Handle is closet in meaning to ……. a. use b. guidance c. touch d. arrangement 48. In which part of dictionary arrangement of entries is mentioned? 49. You can use your dictionary effectively if you don't read its introductory. a. True b. False	
1	**گزینه صحیح را انتخاب کنید.** 50. Our class went on a trip to the zoo, ---------- I was too sick to go. a) but b) for c) so d) and 51. Do you want to go for a bike ride ---------- stay home and read? a) so b) and c) or d) but	**16**
