J. Reading Comprehension : answer the questions suitably , based on the text. (3 Points)

When a child is born , he cannot speak. The only way he can communicate with others is making a few kinds of sound like crying. By crying , he can show his feelings , he can say , " I am hungry , I'm tired , ... " But after a few months , the baby gets aware of his world. At this time , he's careful about everything around him ,especially his parents. He begins to record what they do ,what they say and how they act. He even records his parent's accent, tone of voice , or gesture. Then the baby starts to **imitate** them , that is he tries to copy them and act just like **them**. By imitating his parents, he'll be able to say his first words which are normally very simple . As time passes , the child's speaking skill develops more and more, and when he gets older, he can choose proper words , gestures and expressions to say exactly what he wants.

38. The first child's words are very simple. (**a . True – b. False**)
