Reading comprehension: (Passage One) متن زیر را خوانده پاسخ مناسب را انتخاب کنید. — M

Sleep is essential for all people. Did you know that sleep is more important than food? A person, who does not sleep, dies at a younger age than one who does not eat. Let's say if you sleep ۱۲ hours later than you usually do, it will take your body about three weeks to return to normal. We spend about one- third (۱/۳) of our lives in sleep. That's about ۱۲۱ days a year !

How much sleep do we require? We are all different. A baby needs ۱۶ hours of sleep every day. Children ٦ to ۱۲ years old need an average of ۱۰ to ۱۲ hours of sleep. A teenager needs ۹ to ۱۰ hours, and an adult needs an average of ۷ to ۸ hours of sleep a night. Of course, some people need only ۳ hours of sleep each night. Others need ۱۰ hours of sleep. After age ۵۰, the average sleep time goes to ٦,۵ hours a night. We need less sleep as we get older.

۲

Choose the best answer:

۳۲- Food is less important than sleep. a) True b) False

۳۳- There is no difference in sleep time among people. a) True b) False

۳۴- Old people need ..... hours of sleep each night.

a) ۹ to ۱۰ b) ۱۰ to ۱۲ c) ۶.۵ d) ۱۶

۳۵- A person, who does not sleep, ... than one who does not eat.

a) lives longer b) lives less c) eats more d) gets older

(Passage Two) متن زیر را خوانده و به سؤالات پاسخ دهید. — N

Professor Mahmoud Hessabi was born in Tehran in ۱۹۰۳ to the family of Abbas and Goharshad Hessabi. His family's hometown is Tafresh, Markazi province, Iran. At the age of four, his family moved to Beirut where the young Hessabi attended primary school. He was still in secondary school when World War I started prompting the closure of his school; Hessabi continued his studies at home and in ۱۹۲۲, he earned a degree in road engineering from the American University of Beirut.

After briefly working for the Ministry of Roads, Beirut, Hessabi traveled to Paris for further education. He continued his research in physics at Sorbonne University in France, and got his Ph.D. in physics from that University at the age of ۲۵ in ۱۹۲۷.

Professor Hessabi was the only Iranian student of professor Albert Einstein, and during his years of scientific research, he had meetings with well- known scientists. During the congress of "٦۰ years of physics in Iran", the services rendered by him were deeply appreciated and he was entitled "the father of physics in Iran". Professor Hessabi was a dedicated scientist who did important works for improvement of our country, Iran. He **<u>founded</u>** Tehran University and also the first modern observatory in Iran. In Tehran, Hessabi was affiliated (connected) with the University of Tehran and organized the science and engineering faculties of the university. Professor doctor Hessabi died on ۳rd of September ۱۹۹۲ at the University hospital of Geneva. Dr. Hessabi had always wished that the final dwelling of his body would be his mother- land , Tafresh. Now this wish has come true. May his way be full of followers and his memory everlasting.

۴

۳۶- When did Hessabi's family leave Iran?

۳۷- Why did Dr. Hessabi travel to France?

۳۸- Professor Hessabi is regarded as a great scientist of ---------- in Iran.

۳۹- In paragraph ۲, line ۵, the word, "founded" is closest in meaning to ---------- .

a) received b) considered c) drew d) built

۴۰- Hessabi received his engineering degree in U.S. a) True b) False

۴۱- Because of World war I, schools were closed in Beirut. a) True b) False
