IV. Reading Comprehension متن زیر را خوانده و به سوالات پاسخ دهید. (۵ نمره)

Bill Gate is a very important person in the computer industry. He has been the head of the Microsoft Company for many years. He is also the richest person in America. How did he do it?

He learned a lot from his parents. While Bill was going to school, his father went to college, got a degree, and became a successful judge. From this he learned that you have to work hard if you want something. His mother was a very busy teacher, but she also enjoyed travelling. From this, he learned that if you want to work hard and enjoy yourself at the same time, you have to make a program.

When Bill was young, he spent a lot of time reading. But his childhood was not all work. He played a lot of sports. When he got older, he spent more and more time working and playing on a computer.

Before he was 20, Bill invented the world's first computer language for the personal computer. He thought that every home was going to have a computer, and every computer would require software (the program you put into a computer).

He said, "I am going to make my first million dollars on software by the time I'm 25." And he did it.

43. What did Bill invent before he was 20?

---.

44. Did Bill work all the time in his childhood?

---.

45. From his father Bill learned that --------.

a. his father enjoyed travelling b. his father made a plan before anything

c. to get something needed hard work d. his father liked him to be a judge.

46. Bill was not interested in reading when he was young. a. True b. False

47. Both of his parents were hard-working people. a. True b. False
