۲	**متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.** **Passage 1** Dr. Asadi is answering this important question: "why is it important to care for our elders?" I think first of all, we need to remember that they are our mothers and fathers, and our first teachers. They teach us how to love, how to care, how to forgive, and how to accept. Second, elders have more knowledge and wisdom than any one of us. They've come so far and they've learned so much, we have a responsibility to learn from that wisdom. But the most important thing is their experience. We may or may not know of all the ups and downs they've faced in life but they've definitely gained experience that is worth respecting and learning from. Our elders may hide much pain from us because they don't want us to feel the pain. The least we can do is appreciate **them** for all they've gone through and learn from their insight into situations. Yet another important thing is our heritage and culture. We have much to learn from our parents regarding our heritage, to be proud of our past. This heritage and history brings a sense of belonging. Most importantly, it brings us a sense of identity of our past and the responsibility to protect it for our future generations. What I can add at the end is the role of our parents' morals, values, and principles in our lives. Our elders have either learned, created or have been brought up with a set of morals, values and principles in their lives. Our elders want the best for us and they are willing to tell us what set of rules and guidelines have made them successful, and hopefully, peaceful.	۱۱

Passage 2

When a child is born, he cannot speak. The only way he can communicate with others is making a few kinds of sound like crying. By crying, he can show his feelings, he can say, "I am hungry, I'm tired, ..." But after a few months, the baby gets aware of his world. At this time, he's careful about everything around him, especially his parents. He begins to record what they do, what they say and how they act. He even records his parent's accent, tone of voice, or gesture. Then the baby starts to **imitate** them, that is he tries to copy them and act just like them. By imitating his parents, he'll be able to say his first words which are normally very simple. As time passes, the child's speaking skill develops more and more, and when he gets older, he can choose proper words, gestures, and expressions to say exactly what he wants.

37. Which sentence is correct?

a. The first child's words are very simple. b. Parent's gestures are also difficult to practice.
