۴	متن زیر را بخوانید و به سوالات آن پاسخ دهید. Elderly people often face two main problems: health and money. As people get older, their bodies become weaker. They may have trouble seeing, hearing, or remembering things. Some may also get illnesses such as diabetes or heart disease. Many elderly people learn to live with these health problems, and today they receive better medical care because governments try to support them. Money is another important issue. Most elderly people are retired, so they earn less than younger people who still work. This can make life difficult, especially for those who do not have good housing or transportation. To help them live better lives, governments and families need to support their medical and money-related needs. 32) Elderly people often have health problems, such as trouble seeing or hearing. □True □False 33) Most elderly people earn more money than younger people. □True □False 34) Why do many elderly people receive better medical care today? a) Because hospitals are free for everyone b) Because governments try to support them c) Because they do not get sick anymore d) Because they work full-time jobs 35) What makes life difficult for many retired elderly people? a) Having too many job offers b) Having too much money c) earning less and poor housing d) Traveling too often 36) What are the two main problems elderly people face? …… 37) How can governments and families help elderly people live better lives? ……	۱۱
۴.۵	متن زیر را بخوانید و به سوالات آن پاسخ دهید. A dictionary is a book that shows the meanings of words and expressions. You can find words easily because dictionaries arrange them in alphabetical order. The word “dictionary” is from the Latin word “dictio,” which means “saying.” There are different kinds of dictionaries. Some dictionaries explain words and how they are used; some translate words from one language to another; some are dictionaries of biography that give information about famous people; and some are technical dictionaries that explain the meanings of technical words. Dictionaries that explain what words mean give a clear “definition” of them. A good dictionary provides more information about words as well. For example, it shows how they are pronounced. The International Phonetic Alphabet (IPA) is usually used for this. A complete dictionary also gives the origin of words and the story behind them. For instance, words such as “pajamas,” “bazaar,” and “paradise” came into English from Persian. 38) Dictionaries put words in alphabetical order to help people find them easily. □True □False 39) All dictionaries translate words from one language to another. □True □False 40) The word “dictionary” comes from a Latin word that means “saying.” □True □False 41) What do technical dictionaries explain? a) meanings of technical words b) information about famous people c) the story behind words d) how to pronounce words 42) Which of the following is used to show pronunciation in dictionaries? a) spelling rules b) International Phonetic Alphabet (IPA) c) grammar charts d) pictures 43) What information does a complete dictionary give about words? …… 44) Name two examples of words that entered English from Persian. ……	۱۲
