۴	Reading Comprehension (4 marks) Many products are developed each year. Light bulb, camera, airplane, and telephone were invented by scientists and inventors. Laptops, smart phones, and tablets were made by lots of work. But not all products are developed by hard work. Some inventions were created by accident or scientists' mistakes. Penicillin, for instance, was discovered quite accidentally when Alexander Fleming was working on bacteria. Microwave oven also was invented during a scientist's experiment on energy. More interestingly, some tools and technologies are not made by scientists at all. Some like dishwashers and computer games were made by ordinary people like workers, housewives and school students. True / False Sentences. ۲۹. Penicillin was discovered by Alexander Fleming while he was studying bacteria. A/ True B/ False ۳۰. All modern inventions like laptops and smartphones were created by scientists. A/ True B/ False Answer the following questions. ۳۱. Why was penicillin discovered?	10
