4	متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. The language you speak can change your personality and your life. In 2013, a study in the US showed that Spanish speakers were more outgoing than English speakers. The study tested over 200 people on their confidence levels and asked them about their lives. It found that Spanish speakers were more confident and enjoyed parties and meeting new people. English speakers were shyer and more liked to stay at home and read books. Another study in 2015 looked at bilingual people. These are people who speak two or more languages. The study found that when these people spoke different languages, they acted differently. For example, one woman from Turkey said she was quiet and shy when she spoke Turkish. But when she spoke English, she was loud and confident. She also told more jokes and had more friends. The study also found that when people spoke different languages, they made different decisions. For example, when bilingual people played a game in a second language, they took more risks and made better decisions. So, if you want be more confident, maybe you should learn a new language! **True / False** 55.
