It is very important for us to respect our teachers . We should note that teachers were not always teachers . They were once students like us . They have experienced school time like us . We know that teachers want to help students learn .They have a lot to share with us : their life experiences, their failures, their successes and many more .

When we respect others, we are actually respecting ourselves . We can show our respect to our teachers by paying attention during lessons and following classroom rules . Remember that a good student is always prepared for class .

We all have met many dedicated teachers that go far beyond their duties and become a model for the students . When we listen to them and respect them , they feel honoured . When we study well , we are actually appreciating them for their love and attempt .

True / False
